

## *Stars and Galaxies*

- 1** Look at the contents page. How many different chapters are there?
- 2** Look at the picture on pages 10–11. Which are the two planets closest to Earth?
- 3** Write a fact file about the solar system.
- 4** Add labels to the pictures on pages 16–17.
- 5** Using the index, which page would you turn to in order to find out about dwarf stars?
- 6** Use the contents, index and glossary to create a true or false quiz about stars and galaxies.

## **Answers**

**1** four

**2** Venus and Mars

**3** Answers will vary. Example answer: There are eight planets in the solar system; All the planets orbit around the Sun; The Sun is a star; Earth is the third planet from the Sun; Neptune is the furthest planet from the Sun.

**4** Answers will vary. Example answer: stars, galaxy.

**5** page 9

**6** Answers will vary.
