

North Pole, South Pole

- 1 Add in a subheading for each of the three chapters.
- 2 Add labels to the pictures on pages 24–25 to identify the different animals.
- 3 Using the pictures of the globe, label a map with the North Pole, South Pole, Arctic Ocean and Antarctica.
- 4 Write a fact file about penguins in the South Pole.
- 5 Create a true-or-false quiz about life at the poles.

Answers

- 1 Answers will vary. Example answers: (Chapter 1) The Climate at the Poles; (Chapter 2) Ocean and Land Animals; (Chapter 3) Extreme Conditions
- 2 seagulls, elephant seals, orcas
- 3 North Pole, South Pole, Arctic Ocean, Antarctica
- 4 Answers will vary. Example answer: Lots of penguins live in Antarctica. There are different types of penguin; they are called emperor penguins, gentoo penguins and Adélie penguins. Penguins can walk on land and swim. They live on the ice and in the ocean. Penguins can swim very fast and jump off high cliffs into the water.
