

Earth Smart

- 1** Using the contents page, which chapter are you most interested in learning about?
- 2** Write a caption for the picture on page 10.
- 3** Add labels to the pictures on page 14 to identify the different materials for recycling.
- 4** What does the fact box on page 27 tell you about organic food?
- 5** Use the glossary to explain what a landfill is. Then use the index to find out what page to go to in order to find out more.
- 6** Create a poster about the benefits of recycling.

Answers

2 Answers will vary. Example answer: Bins are emptied into a bin lorry, which takes the rubbish to a landfill site.

3 glass, can, can, plastic, plastic

4 Organic food is grown without chemicals, which makes it harder to grow and therefore more expensive.

5 A landfill site is a large hole in the ground that is filled with rubbish and covered over with soil; page 11.
