

Deep Sea Creatures

- 1 Look at the contents page. Where can you read about jellyfish?
- 2 Why is red a good colour for camouflage in the deep sea?
- 3 What does 'transparent' mean?
- 4 True or false? Most deep-sea animals glow.
- 5 Where is an anglerfish's lure?
- 6 How does the author feel about hagfish?
- 7 Explain how a viperfish can fit big prey in its mouth.
- 8 Have ghost sharks got a bone skeleton?

Answers

1 page 14

2 because it looks black to many predators

3 see-through or clear

4 true

5 on a stalk on top of its head

6 that they are disgusting but interesting

7 it unhinges its jaw so its mouth can open even wider.

8 No, the skeleton is made of cartilage.
