

Nighttime Animals

- 1 Turn to pages 6–7. When do the nighttime animals wake up?
- 2 Look at the picture of an owl on page 11. What is a ‘talon’? How do you know this from this page?
- 3 Look at pages 14–15 about scorpions. What extra information do you learn from the photo and labels?
- 4 Read about possums on pages 22–23. What is a baby possum called?
- 5 Look at the index near the back of the book. Which pages would you turn to for information about coyotes? How would you find these pages in the book?

Answers

1 when the sun sets / night falls

2 a hooked claw; from the label on the picture

3 the position of the stinger and claw, and what they look like

4 a joey

5 page 8; using the page numbers at the bottom of the page
