

Crafting a Ladybird for Valentine's Day

Make a cute and cheerful paper ladybird for Valentine's Day. A small craft project that's sure to bring a big smile!

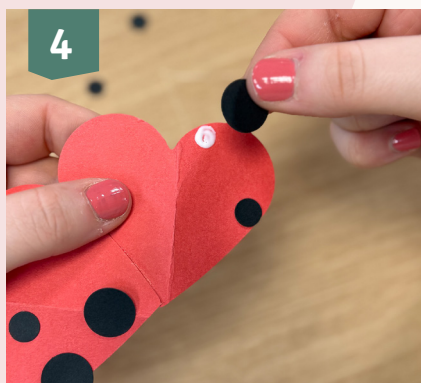

1
Punch out three large hearts: two red/pink and one white.

2
Glue the red hearts behind the white heart.

3
Punch several black circles in different sizes, including one larger circle.

4
Gently fold the red hearts slightly inwards and glue the black spots only onto the front.

5
Trim off any circles that extend beyond the edges.

6
Glue the large circle to the top of the white heart.

For extra detail, attach little legs and antennae to the back of your ladybird.

Finish the ladybird by drawing the eyes, mouth and rosy cheeks using a white Gel-ly Roll pen and a red acrylic marker.
