

## Money Origami: Heart shape

Fold a heart from a banknote as a cute Valentine's craft. It turns a simple money gift into a personal and heartfelt present.

Choose a banknote with your desired amount.

Fold the note in half lengthwise, so the top and bottom edges align.

Then, fold it in half widthwise, bringing the short sides together. Press the fold firmly.

Unfold the banknote.

Take the right half and fold the bottom corner diagonally upwards to form a point.

Repeat on the left side to gradually shape a heart.

7

Turn the banknote over.

8

Fold the right corners inward.

9

Do the same with the left corners.

10

Fold the two top corners slightly inwards to create a softer, rounder heart shape.

11

Turn the banknote over again and admire your money heart. A unique and thoughtful gift for a special occasion!
