

Cute Styrofoam caterpillars

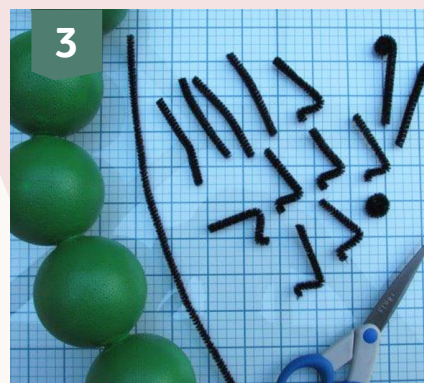

Using various sizes of Styrofoam balls, some chenille wires and glue you can create the cutest of caterpillars! Paint these creepy crawlies in your favourite colours and give them their own personalities by adding funny googly eyes. Fun to craft with children and great for brightening up the garden or nursery.

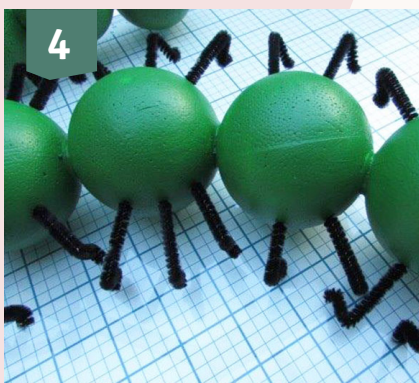

1 Using glue gun or Styrofoam glue, glue 6 balls in the form of your caterpillar.

2 Let the glue dry and then paint your caterpillar in a colour of your choice.

3 Cut the chenille thread in pieces of 6cm and bend these pieces into the shape of feet. Roll a piece of chenille thread into a ball for the nose then make two feelers for the top of the head.

4 Push 3 feet into each side of the balls then the feelers on top of the head.

5 Finish off your Caterpillar using a little blob craft glue to attach the eyes and nose.
