

## Halloween decoration with ice lolly sticks

Make people's hair stand on end with this spooky hanging decoration for Halloween. Magic your home into a house of horrors and give this garland pride of place! Get to work with ice lolly sticks, acrylic paint and googly eyes to create a Halloween ghost, a pumpkin, a spider and Frankenstein's monster. Before you know it, you'll have this Halloween decoration hanging on your front door. Would you like to know how to make this Halloween decoration? Then just follow the steps in this project!

Stick 3 times 12 sticks together by gluing 2 sticks across the back. Next, stick 8 sticks together with 1 stick glued across the back, so that it sticks out on either side.

Paint the 4 basic shapes in green – black – white – orange.

Paint faces on the figures and stick on the googly eyes. Glue 3 black pipe cleaners to the back of the spider and bend the end of each leg to make a foot.

Attach a length of ribbon to the backs of the figures so that you can hang them up.
