

## Create Easter Treat Boxes with Cardstock Paper

A bunny-shaped Easter basket is a perfect project for anyone who wants to craft something fun for Easter. Use cardstock and simple techniques like cutting, scoring and punching to create a cheerful basket for eggs or a small treat.

1  
Cut a rectangle of 10 x 15 cm from cardstock.

2  
Score all sides at 3 cm.

3  
Cut the long sides up to where the score lines intersect.

4  
Punch both long sides with a decorative border punch.

5  
Trim the side panel so that you can later fold it neatly together (see step 9).

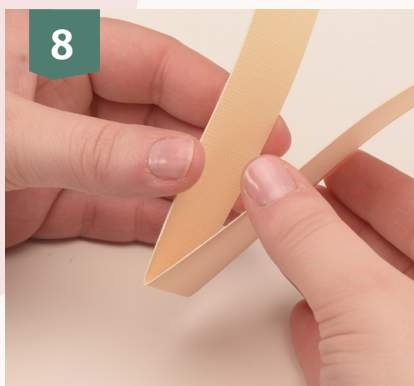

6  
Cut two long strips of 4 x 30.5 cm.

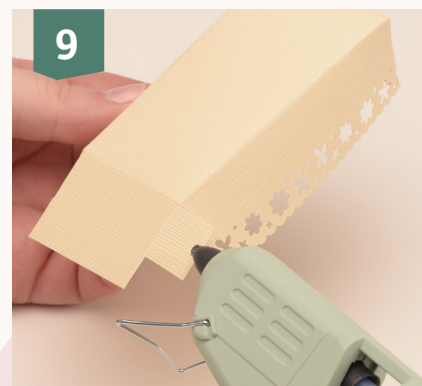

Score the first strip at 3, 15, 25, and 27.5 cm. Score the second strip at 15.25 cm.

Create a valley fold in the strip scored at 15.25 cm.

Glue the base of the box together.

Attach the strip with multiple score lines to the base of the box.

Glue the singly scored strip in a way that forms bunny ears.

Then, affix the ears to the other strip.

Punch two hearts, two ovals, and six small circles. Attach the hearts and circles to the ovals to create the bunny's feet.

Glue the feet to the box.

Create a face by sticking satin ribbon and a pom-pom just below the ears. Buttons or gemstones are also fun to use for decorating the box.
