

Create a Colourful Carnival Rosette

Create a cheerful rosette in (Dutch) carnival colours! With paper, glue, and lots of scoring and folding, you can make a festive decoration for your carnival outfit.

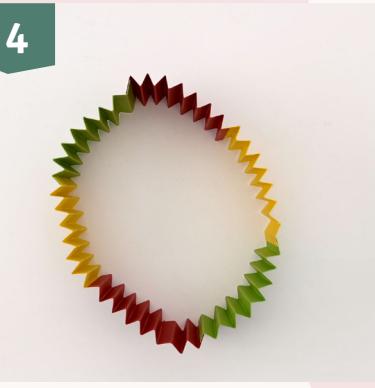

Take a red, yellow, and green A4 sheet of cardstock and cut each into four pieces of 14.8 x 10.5 cm (A6). Place each piece on the scoring board and score a line every centimetre.

Repeat this for all sheets until you have six scored pieces. Now fold each piece in a zigzag pattern.

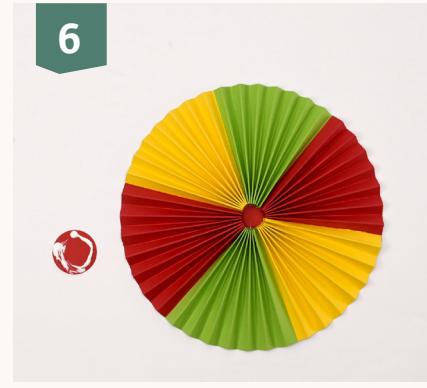

Place the zigzag pieces next to each other so the pattern continues, and stick them together with glue or double-sided tape.

Also, join the beginning and end to form a circle.

Punch two circles from a new sheet of paper.

Apply glue to both punched circles. Place one down, press the zigzag circle inwards so it flattens, and stick the other circle on top. Press firmly and let it dry.

7

Draw a hat, eyes, and a mouth on white and black paper.

8

Cut out the shapes and stick them onto the rosette. Optionally, add extra details with a fine liner or marker.
