

Cheerful Spring card with Flowers

Add a burst of freshness to your card collection with this vibrant spring card!

Dive into the creative process using cardstock paper, an embossing folder, a stencil, a die and ink. That's all you need to craft this beautiful card blooming with flowers. A charming quote adds the perfect finishing touch!

Take a sheet of holly cardstock paper and cut it to 12 x 6 inches. Then, score at 4.25, 7.25, and 10.25 inches.

Fold the card into a zigzag pattern.

Cut light blue and yellow paper to 6 x 6 inches. Cut two squares from each colour.

Place these sheets one by one in the embossing folder and run them through the die-cutting machine.

Attach the embossed paper to a work surface and place the matching stencil over it. Apply ink to the paper using a blending tool. We used different ink colours for the blue and yellow paper.

Cut the blue embossed paper into strips: one of 3.75 x 5.5 inches and two of 1.25 x 5.5 inches.

7

Cut two strips from the yellow embossed paper, each measuring 2.5 x 5.5 inches.

8

Take a sheet of aqua blue cardstock and cut it into strips: one of 4 x 5.75 inches and two of 1.5 x 5.75 inches. Also, grab a sheet of olive green cardstock and cut it twice at 2.75 x 5.75 inches.

9

Once all the paper is cut, you'll achieve the result shown above. Attach these sheets together and stick them onto the card.

10

Use the alphabet die and yellow cardstock paper, and run them through the die-cutting machine twice.

11

Create a fun quote with the die-cut letters and adhere them to holly cardstock paper. Cut it out in a contour shape.

12

Cut a strip of olive green cardstock measuring 9.5 x 2 inches. Score it at 2 and 6.5 inches. This creates a band that can be folded around the card.

13

Take another piece of yellow embossed paper and cut it to 4.25 x 1.75 inches. Stick it on the band along with the quote. Slide the band around the card, and your cheerful spring card is ready!
