

Make an autumn wreath with felt

Create a cosy autumn wreath using felt leaves in warm, natural colours. In just a few simple steps, you can transform a styrofoam ring into a beautiful decoration, perfect for the autumn season!

1 Lay down the first sheet of felt and position the cutting dies on top. Run it through the PressBoss multiple times.

2 Make sure to arrange the cutting dies in a way that uses the entire sheet for cutting out the leaves.

3 Repeat this with the other felt colours until you have five piles of leaves in different shades.

4 Take a half-flat styrofoam ring and begin covering it with the felt leaves. Attach them in an overlapping pattern using pins or a hot glue gun.

5 Cover the entire ring with leaves until it looks like a wreath of autumn foliage. You can display the wreath as a decorative piece or attach a ribbon to hang it.
