

Card with Stamps and Hearts

Looking for a creative idea to craft for Valentine's Day? With the Shape Dies Postage Stamps with Hearts, you can make a sweet and original card full of hearts — perfect for surprising someone on Valentine's Day.

1
Start by making the card base. Take an A4 sheet of smooth cardstock, cut it lengthwise at 4.1 inches (10.5 cm), rotate it 90 degrees, and score it at 5.8 inches (14.8 cm).

2
Cut a textured white cardstock rectangle measuring 3.6 x 5.2 inches (9.2 x 13.2 cm).

3
Use the rectangular stamp and the largest heart from the Shape Die set. Run these dies through the Cut Easy Mini using pastel-coloured paper.

4
Choose two more paper colours and repeat step 3. This will give you three hearts and three stamps of each colour, for a total of nine of each shape.

5
Match the hearts and stamps in your preferred colour combinations. Attach a piece of foam tape to the back of each heart and stick it to the top half of the stamp.

6
Add accents to the hearts using a white gel pen. Then, write "XOXO" on the lower half of the stamps.

7

Take the card base from step 1 and the rectangle from step 2. Use thin foam tape to attach the rectangle to the card, then arrange and stick the stamps in place.
