

Craft a Styrofoam Igloo

Create this fun igloo using round styrofoam shapes! Apply texture paste for a realistic snow effect and decorate with glittery snowflakes and pom-poms.

1 Mark half of the donut shape on the styrofoam half-sphere and cut out a semi-circle to form the igloo's entrance.

2 Cut the donut shape in half and attach one half to the entrance opening.

3 Cover the igloo with texture paste, using a palette knife or brush to create a brick-like pattern.

4 Punch snowflakes out of glitter paper.

5 Decorate the igloo with the snowflakes and white pom-poms while the texture paste is still wet, ensuring they stick properly.
