

Craft Adorable Popsicle Stick Easter Bunnies

Looking for a fun Easter craft activity? Make a cheerful bunny using lollipop sticks! With just some paper and glue, you can create a cute Easter decoration in no time. Perfect to make with children!

1 Place four popsicle sticks side by side. Cut a fifth stick into short pieces, slightly narrower than the total width of the four sticks. Glue these short pieces across the back to hold everything together.

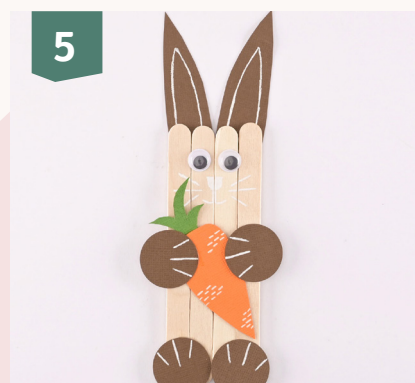

2 Take a sheet of brown cardstock and punch or cut out four small circles—these will be the bunny's paws.

3 Draw two bunny ears on the same brown paper and cut them out. Then, use green and orange paper to draw and cut out a carrot shape.

4 Use a white gel pen to add details to all the brown shapes.

5 Attach all the pieces to the popsicle stick base. Stick on two googly eyes, and use the gel pen to draw a nose, mouth, and whiskers on the wood. You can also add white lines to the carrot for extra detail.

6 Want to make an ornament of your bunny? Simply glue a piece of jute cord to the back.
