

Make a Spring Card *Springtime Greetings*

Create this beautiful spring card with floral embossing and cheerful colours. Surprise someone with a handmade card and bring spring to life with your creative touch!

1 Take an ivory-coloured folded card or a folded piece of cardstock measuring 5.7 x 3.9 inch (14.5 x 10 cm). Place the largest oval cutting die from the set (no. 1) on top, making sure a small part extends beyond the fold line. Die-cut it using the die-cutting machine.

2 Place a 5.9 x 5.9 inch (15 x 15 cm) sheet into the floral embossing folder. Run it through the die-cutting machine to create a beautiful embossed texture.

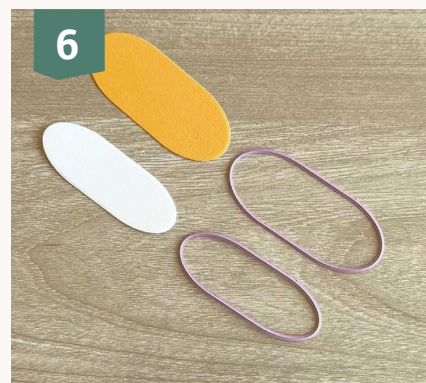

3 Lay the embossed paper on a work mat and place the matching stencil on top. Use a dauber to apply ink to the flowers.

4 Once all the flowers are coloured, use the same technique to colour the leaves green.

5 Take the cutting dies 2 through 5. Die-cut no. 2 from yellow cardstock, no. 3 from ivory cardstock, no. 4 from green cardstock and no. 5 from the embossed sheet. Cut each one out separately.

6 Use cutting dies 11 and 12 with yellow and ivory cardstock. Die-cut them and glue them together.

Stamp a fun message on the card using yellow ink.

Assemble all the pieces, and your cheerful spring card is ready!
