

Crafting a Dragonfly

Create a cheerful dragonfly using paint and paper. Experiment endlessly with colours and textures. Great fun to do with children!

1 Fold a sheet of coloured paper in half and draw half a dragonfly along the fold.

2 Cut along the drawn dragonfly through both layers of paper.

3 Open the paper; your dragonfly now appears as a whole.

4 Apply paint to one side of the dragonfly. You can use a generous amount.

5 Carefully fold the dragonfly closed and press firmly. Watch out: the paint may spill.

6 Open the dragonfly and let the paint dry.
