

Dutch Card with Tulips

Give your creation a Dutch touch with this card full of cheerful tulips! A classic Dutch design that will brighten anyone's day.

1
Cut a double card from dark kraft paper, 26 x 13 cm (folded: 13 x 13 cm). Cut a square from light kraft paper, 12.5 x 12.5 cm.

2
Rub an anti-static bag over the light kraft paper. Then stamp tulips with Versamark. Sprinkle red embossing powder over it and heat with a heat tool until the powder melts.

3
Repeat this process with white, blue, and gold embossing powder for a playful effect.

4
Stamp a windmill on dark kraft paper and die-cut it in a postage stamp shape.

5
Stick double-sided tape on the back of the stamp and attach a piece of white satin ribbon. Then add foam tape and stick it in the centre of the card. Your typically Dutch card is ready!
