

## Father's Day Keyring

Make a cool and personal keyring for Father's Day using wooden beads, felt and macramé cord. A small gift with a big smile!

1 Draw a smiley face on a wooden bead using a black fineliner.

2 Then paint another wooden bead in a colour of your choice.

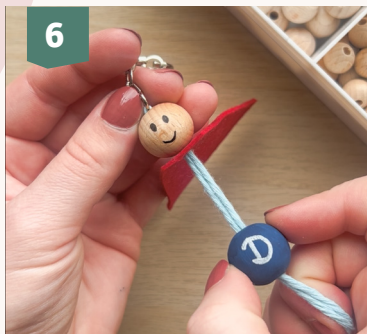

3 Draw the shape of a cape onto red felt and cut it out.

4 Use a hole punch to make a hole in the middle of the narrow side of the cape.

5 Attach a piece of macramé cord to a keyring. First thread on the smiley bead and then the cape.

6 Next, thread the painted bead onto the cord as well.

7 Trim the cord to your desired length and gently separate the ends of the macramé cord for a playful effect.
