Computer Engineering
Report on – ACM Feud: The Tech show-off

Title: ACM Feud: The Tech show-off

Date: 17th September 2025

Time: 11:15 a.m. – 1:15 p.m.

Venue: Mondini Hall

Target Audience: S.E./T.E./B.E

No. of Participants Present: 52

No. of Girl Participants Present: 15

No. of Boy Participants Present: 37

Resource Person: Ms. Rucha Tatkare

Organization of Recourse Person: ACM Student Chapter

Organizing Department / Committee / Authority: ACM Student Chapter

Faculty Coordinator: Ms. Priya Kaul

Objectives:

- ❖ Celebrate Engineers' Day by promoting collaboration, creativity, and technical curiosity.
- ❖ Encourage cross-disciplinary engagement among students through a game-based format.
- ❖ Reinforcing engineering concepts in an accessible and entertaining way, also provide a platform for student leadership and event management through ACM chapter roles.

Outcomes:

- ❖ Participants get exposure to a wide variety of engineering topics and general technical questions it helps them to sharpen their ability to quickly recall facts.
- ❖ Students are pushed to analyse questions under time pressure, deduce answers and think creatively. This strengthens their analytical thinking.
- ❖ By blending it with a game show style competition with technical questions, the ACM club introduced a creative and entertaining format that stood out from the traditional quizzes.

Detailed Report:

To celebrate Engineers 'Day, the **ACM-DBIT Student Chapter** hosted an interactive and competitive quiz-style event named **ACM Feud** on **17th September 2025**. Inspired by the popular show Family Feud (hosted by Steve Harvey), the event was designed to combine fun, excitement, and technical knowledge. The event was skillfully hosted and compered by **Miss Verushka Fernandes (Secretary, ACM)** and **Mr. Malcolm Monserrate (Asst.PR, ACM)**, who kept the energy high and ensured smooth flow throughout

The competition consisted of two engaging rounds, structured as follows:

Round 1 - Face-Off Question & Answer

Participants: 50 students, divided into 10 teams (5 members each). Teams competed head-to-head by answering general engineering questions. Each member pressed the buzzer in serial order to gain the chance to answer. Both teams received 3 questions each in this round.

Rules: Each team was allowed 2 strikes; after two wrong attempts, the chance passed to the opposing team.

Scoring: Scores were displayed live on the scoreboard for transparency and excitement.

Outcome: After competitive rounds, the top 6 teams with the highest scores advanced to Round 2.

Round 2 - Rapid Fire Genre Round

Five different genres were prepared (e.g., engineering concepts, logical reasoning, current innovations, general science, and visual identification). Each team assigned one member per genre, with the rule that no participant could repeat in another genre. For each genre, a picture related to the theme was displayed on the projector. The first player to press the buzzer earned the chance to answer. Players had 5 seconds to respond after buzzing.

Scoring System: A separate marking scheme was applied in this round, emphasizing speed, accuracy, and diversity of knowledge.

Winners:

1st Place: Team Dwayne

2nd Place: Team Shawn

Both winning teams were awarded cash prizes, marking the culmination of the event.

Feedback Analysis:

The ACM Feud event was conducted in a highly organized and professional manner, and it was well appreciated by participants, faculty members, and the audience. The structure of the competition, with its two distinct rounds, Face-Off and Rapid Fire, ensured that a wide range of skills such as technical knowledge, quick decision-making, and teamwork were effectively tested. The buzzer system and transparent scoring mechanism added fairness and excitement to the competition, while also fostering a healthy competitive spirit among the students.
