

WELCOME TO CLAYS

GROWN.
MADE.
SOURCED.
PROPERLY.

Long before it reaches your table, our food begins with British producers, from family-run farms to independent bakers, beekeepers and curing specialists, all chosen for their care, quality and respect for tradition. We prioritise seasonal British vegetables for flavour, not just yield.

Our fish is sourced from British waters, never from under-threat species, and responsibly farmed without antibiotics or pesticides. In our kitchens, we cook with purpose, minimising waste, respecting every ingredient and focusing on doing things properly, because great food should feel good in every sense.

ALLERGY INFORMATION

At Clays, food & drink are prepared in kitchens & bars that handle all 14 allergens recognised by the FSA. Despite our precautions, trace amounts may still be present. Items marked with * contain allergens. Gluten-free bases and buns are available on request; however please note these are not prepared in a gluten-free facility. Please speak to a member of the team. PIZZETTE TO SHARE

Inspired by the pizza breads found in traditional Italian bakeries, the kind you'd see stacked behind the counter, cut into squares and wrapped in paper.

We didn't want to do average pizza. So instead of chasing trends, we went back to tradition.

From a specialist producer, somewhere between focaccia and pizza. Light and fluffy inside, crisp at the edges, baked properly in the oven the way bakery pizza was always meant to be.

A little nostalgic. A little indulgent.
Completely moreish.

All pizzette are available GF on request.
